

1. Sign In Button Not Working

- **Severity:** Critical
 - **Steps to Reproduce:**
 1. Navigate to the homepage
 2. Click on the “Sign In” button
 - **Expected Behavior:** User should be redirected to the login form/page
 - **Actual Behavior:** No action is performed on click
 - **Suggested Fix:** Add an `onClick` handler or navigation logic for the Sign In button
-

2. Sign Up Button Not Working

- **Severity:** Critical
 - **Steps to Reproduce:**
 1. Navigate to homepage
 2. Click on the “Sign Up” button
 - **Expected Behavior:** Redirects to sign-up form
 - **Actual Behavior:** No response to click event
 - **Suggested Fix:** Ensure routing and `onClick` event handler are properly configured
-

3. Sort by Date Exists but No Date Shown

- **Severity:** Medium

- **Steps to Reproduce:**
 1. Open video list page
 2. Click on “Sort by Date”
 - **Expected Behavior:** Videos should show their upload date
 - **Actual Behavior:** No date is displayed in video description
 - **Suggested Fix:** Include upload date metadata in the video card component
-

4. Video Playback Fails

- **Severity:** Critical
 - **Steps to Reproduce:**
 1. Select a video to play
 2. Click on Play
 - **Expected Behavior:** Video should start playing
 - **Actual Behavior:** Error “Error loading video. Please try again later”
 - **Suggested Fix:** Validate video source URL or handle player loading failure gracefully
-

5. False Internet Error Message

- **Severity:** High
- **Steps to Reproduce:**
 1. Click play on any video
- **Expected Behavior:** Video should play if the internet is available

- **Actual Behavior:** Displays “Check your internet connection” even though internet is stable
 - **Suggested Fix:** Improve error handling to distinguish between player failure and internet issues
-

6. Volume Slider Not Working

- **Severity:** Medium
 - **Steps to Reproduce:**
 1. Click volume icon
 2. Try adjusting volume
 - **Expected Behavior:** Volume changes as per user input
 - **Actual Behavior:** Slider doesn't respond; manual adjustment needed
 - **Suggested Fix:** Bind slider value to audio control logic
-

7. Post Comment UI is Improper

- **Severity:** Low
 - **Steps to Reproduce:**
 1. Scroll to comment section
 - **Expected Behavior:** Clean, aligned UI with proper spacing
 - **Actual Behavior:** Misaligned fields/buttons
 - **Suggested Fix:** Apply consistent styling with layout margins
-

8. Like Button Doesn't Work After Reply

- **Severity:** Medium
 - **Steps to Reproduce:**
 1. Reply to a comment
 2. Click on Like button
 - **Expected Behavior:** Like count should increment
 - **Actual Behavior:** No change or action
 - **Suggested Fix:** Ensure Like state is linked with dynamically added replies
-

9. Bookmark/Comment State Not Reset

- **Severity:** High
 - **Steps to Reproduce:**
 1. Play one video
 2. Add comment/bookmark
 3. Play another video
 - **Expected Behavior:** State should refresh for new video
 - **Actual Behavior:** Previous comment/bookmark persists
 - **Suggested Fix:** Reset local state when video selection changes
-

10. Typo in Hashtag ('jest' instead of 'test')

- **Severity:** Low

- **Steps to Reproduce:**
 1. Open “Intro to Testing” video
 - **Expected Behavior:** Hashtag should be “#test”
 - **Actual Behavior:** Incorrectly rendered as “#jest”
 - **Suggested Fix:** Correct static text/label value
-

11. Bookmark Section Showing NaN

- **Severity:** Medium
 - **Steps to Reproduce:**
 1. Click on bookmark icon
 - **Expected Behavior:** Show bookmarked video details
 - **Actual Behavior:** Displays **Advanced React NaN:NaN**
 - **Suggested Fix:** Validate time or duration metadata before display
-

12. Video Image Changes on Refresh

- **Severity:** Low
- **Steps to Reproduce:**
 1. Refresh the page
- **Expected Behavior:** Consistent thumbnail per video
- **Actual Behavior:** Thumbnail keeps changing
- **Suggested Fix:** Cache video thumbnails or bind consistent thumbnail source

13. Video Pause Button Not Working

- **Severity:** Medium
- **Steps to Reproduce:**
 1. Attempt to pause video that hasn't started
- **Expected Behavior:** Pause should be inactive until video starts
- **Actual Behavior:** Button present but does nothing
- **Suggested Fix:** Conditionally render pause button only after video starts

14. NaN Appears When Clicking Bookmarks

- **Severity:** Medium
- **Steps to Reproduce:**
 1. Click on items in the bookmark list
- **Expected Behavior:** Display video title and timestamp
- **Actual Behavior:** Shows NaN
- **Suggested Fix:** Sanitize time value in bookmark logic

15. UI Layout Needs Improvement

- **Severity:** Low
- **Steps to Reproduce:**
 1. Use the app across various pages

- **Expected Behavior:** Well-aligned, responsive UI
- **Actual Behavior:** Unaligned elements, spacing issues
- **Suggested Fix:** Apply consistent design system / use CSS frameworks

Prioritized Bug List

Priority	Title	Severity
1	Sign In Button Not Working	Critical
2	Video Playback Fails	Critical
